Soft Skills

Teamwork · Effective Communication · Adaptability

Professional Summary

Dynamic and accomplished Full Stack Web Developer with 3.5 years of expertise in web design. Proficient in the MERN stack, adept at delivering both solo and collaborative projects. Excels in leveraging Generative AI and rapidly mastering new tech stacks, demonstrating a commitment to staying at the forefront of industry advancements.

Projects

Sarthi Travel   Live Demo Link   Github Repo Link

HTML5 · CSS3 · JavaScript · Bootstrap

- Contributed to a collaborative project for a travel agency's website, enhancing user experience by designing the landing page and user interface.
- Implemented a user authentication system and integrated a service booking feature, enabling users to book dream destinations within budget constraints.
- Collaborated with a team of 4 members to complete the project in 5 days.

ARTHUB   Live Demo Link   Github Repo Link

React · React Redux · Chakra UI · Node.js · Express.js · MongoDB

- Collaborated in a team of 2 members to construct a diverse image collection website in 5 days.
- Designed the UI and implemented user authentication systems, enabling users to explore, share, and manage art-related images.
- Incorporated features such as image search, filtering, sorting, and user-generated posts with pagination.

BookHubX   Live Demo Link   Github Repo Link

Angular · Node.js · Express.js · MongoDB

- Conceptualized and developed BookHUbX, a dynamic bookstore with community features, utilizing Angular, Node Js, and MongoDB within an 8-day solo project.
- Implemented user-friendly features for browsing, purchasing, and creating personalized reading lists, showcasing adaptability by incorporating Generative AI techniques.
- Integrated an Open AI-powered chatbot to enhance user engagement by providing personalized book recommendations based on genre or author.
- Designed and implemented an interactive community section for discussions, allowing users to initiate and engage in conversations about books and authors.
- Demonstrated proficiency in Angular, Node Js, and MongoDB, ensuring efficient backend and frontend development for a seamless user experience.

Experience

Infowebment Solution and Consultancy Services | Web Designer
August 2019 - January 2023

- Developed user-friendly websites using HTML, CSS, JavaScript, and Bootstrap.
- Designed brochures, logos, and ID cards with Photoshop and Illustrator.
- Collaborated with clients to deliver customized design solutions, exceeding expectations.
